Kärcher opens new Clean Park in Australia

Clean Parks are part of Kärcher's ongoing efforts to expand and enhance its service offerings.

Kärcher celebrated the grand opening of its newest Clean Park in Hoppers Crossing, Victoria (Australia). The facility aims to offer a premium car washing experience with state-of-the-art auto washes that incorporate the latest biological water recycling systems. This innovation underscores Kärcher's commitment to environmental sustainability.

Stefan Patzke, Member of the Board and CFO of Kärcher, was present to cut the ribbon and officially inaugurate the facility. In his remarks, Patzke highlighted the significance of this new Clean Park as part of Kärcher's ongoing efforts to expand and enhance its service offerings.

The Hoppers Crossing Clean Park is equipped with advanced technology, including license plate recognition, to ensure a seamless and efficient user experience.

Kärcher expressed gratitude to their team for their efforts and enthusiasm in making the new Clean Park a reality.
